CDA-VGA20C

1X2 VGA Distribution Amplifier

The CXV-2VGA allows a single SVGA source to be displayed on two monitors simultaneously. Videos splitters are designed to duplicate and amplify PC video signals for transmission to multiple monitors. It provides a fast, flexible solution for broadcasting video information to the public. Applications include Information broadcasting, video conferencing, TV classrooms, high quality multimedia presentations and demos. Supports VGA, SVGA, and multisync monitors. Has a female VGA input and 2 female VGA outputs.

Features

- Resolutions up to 2048 x 1536 @ 72Hz
- Bandwidth up to 400 Mhz

Technical Specifications

Input:	Female SVGA x 1
Output:	Female SVGA x 2
Power:	DC Jack
Power consumption:	9V, 500 mA
Resolution:	Supports resolutions up to 2048 x 1536/72Hz
Video Bandwidth:	Up to 400 MHz
Physical:	Metal box
Dimensions:	183 x 115 x 47mm
